CHAPTER I. INTRODUCTION

1.1. History of the Company

PT. Solusi Nutri Sehat is a subsidiary company of PT. Sinergi Solusi Integrasi. PT. Sinergi Solusi Integrasi was established in 2012 and is engaged in information technology services such as integrating software, hardware, and systems development for corporations. However, in 2018, as the company grew, PT. Sinergi Solusi Integrasi began to expand its business line by providing prepaid card top-up services on toll sections and taking over the entire operation of top-up machines on all existing sections to help large companies such as Bank Nasional, as the name implies PT. Sinergi Solusi Integrasi provides integrated services that aim to solve problems by considering synergies. The company focuses on being a "one-stop solution" for technology companies seeking procurement of practical software and hardware. If even large companies need collaboration to grow, the demand will be even more significant in Micro, Small, and medium enterprises. Therefore, in line with the government of Indonesia, PT. Sinergi Solusi Integrasi supports SME growth by providing proven services to a broader segment and effectively becoming Indonesia's first and only company to offer such services.
